# Seattle Department of Transportation **OPEN HOUSE**

## ***Ballard Corridor Design Study*** ***Bicycle and Pedestrian Routes (11th NW to Locks)***

The Seattle Department of Transportation (SDOT) will host an Open House on **November 19, 2002 at Ballard High School "Commons" (6:30 to 8:30 p.m.)** to present the most current information about the options for routing bicycles and pedestrians from the end of the current Burke-Gilman Trail at 11th Avenue NW to the entrance to the Ballard Locks at 30th Avenue NW.

### ***WHAT'S THE OPEN HOUSE ALL ABOUT?***

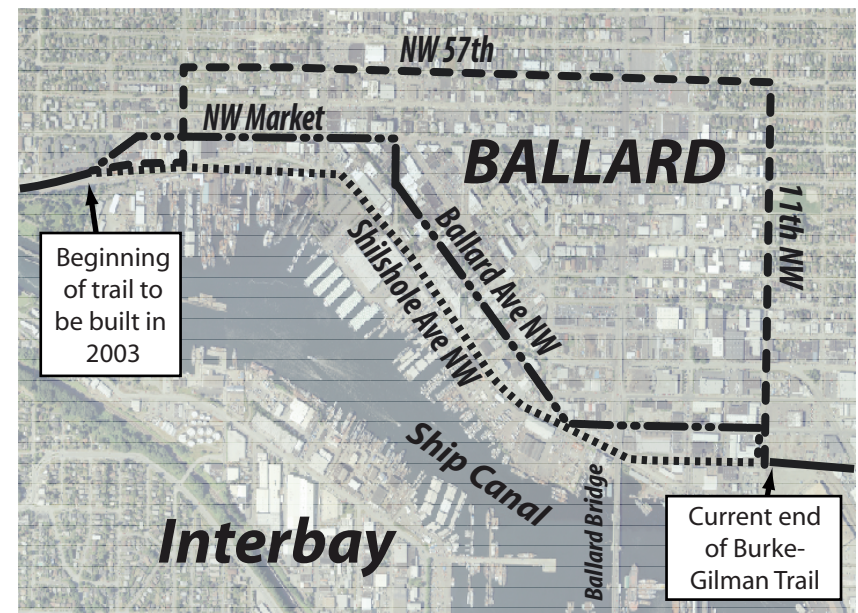

Over the past year department staff and community representatives have been working to accurately identify and refine three alternatives for routing bicyclists and pedestrians from the end of the current Burke-Gilman Trail at 11th Avenue NW to the entrance of the Ballard Locks at 30th Avenue NW. SDOT encourages you to attend the Open House, learn about the project, and help shape the final "Design Study". The "Design Study", along with a recommendation, will be presented to Mayor Nickels upon completion.

The Open House will provide you with an opportunity to learn about the project and formally identify any concerns or problems that have not yet been identified for each route alternative. Detailed display boards with block by block representations of the alternatives, including known problems or concerns for each section, will be available for viewing. City staff and community representatives will also be available to answer questions as you view the displays at your own pace.

The Open House will begin at 6:30 and end at 8:30 p.m. We encourage people to arrive no later than 8:00 pm to provide enough time for you to review the boards, speak with City staff and community representatives, and submit your comments.

If you are unable to attend the Open House and would like to know more about the project, please visit the project web site
